

Honeywell Direct

**Your Direct Connection
to Exceptional Service,
Selection and Delivery**

Honeywell

Direct to You

Your Honeywell Direct representative is a knowledgeable resource who will quickly help you find replacement parts. Whether you need a pneumatic thermostat to control the temperature in your building, a direct-coupled actuator for your damper, or a replacement sensor for your building automation system, your Honeywell Direct representative will answer all of your maintenance and installation questions.

From One Dependable Source

Service you can count on, a complete selection of commercial HVAC controls and accessories, and speedy delivery — Honeywell Direct provides it all. You can turn to one dependable source for everything. One call to one source improves the comfort in the buildings you maintain.

Superior Service

Your building maintenance and repair needs will be quickly identified and solved with the help of your expert Honeywell Direct representative.

- From nationwide locations, your local Honeywell Direct representative gives you personalized service
- We guide you to the model number you need with immediate cross-reference information
- We provide quick solutions to even the most difficult technical and application questions about your pneumatic, electronic, automation and fire and security equipment
- Product literature and comprehensive training support are also available at your request

We are committed to customer service. When you call with a question, we find the answer. We have extensive knowledge about the systems you use day in and day out. And your local Honeywell Direct representative will quickly help you identify the exact replacement device you need for all your electronic, fire and security and pneumatic controls. One supplier and one purchase order is all it takes to get the parts you need.

Huge Selection

Honeywell is a leading manufacturer in controls technology. And Honeywell Direct is your single source for over 10,000 controls, accessories and other products.

- One call is all it takes to access Honeywell's complete line of commercial building controls
- Electric, DDC and pneumatic building controls, supplies and accessories are in stock for timely delivery

Honeywell Building Solutions

www.honeywell.com

- Complete line of Honeywell building automation parts is available for easy replacement
- Repair parts, kits and supplies keep your systems running at peak performance
- Tools, technical literature and accessories simplify your job

All Your HVAC Needs

Your Honeywell Direct representative will provide you with the information and products you need to keep your building running smoothly — including information on energy-saving controls, modernization kits, replacement devices, repair kits and accessories.

Honeywell Direct is your source for all of your HVAC needs. The newly revised and expanded Honeywell Direct Catalog contains a detailed cross-reference to help you find correct replacements for your Honeywell system and systems like Johnson Controls, Siemens and others.

Fast Delivery

As soon as you call Honeywell Direct, your order is put in motion. The optional 24-hour delivery service will help you get your system up and running in no time.

- Fully automated distribution center maintains over 3.5 million units of inventory waiting for your call
- Over 95 percent of orders received are shipped within 24 hours
- You specify: standard, second-day or overnight delivery

Your controls will be shipped to you immediately from our distribution center. Large inventory and an automatic, online tracking system ensure you'll get the part you need quickly and efficiently.

Make Your Job Easier

Honeywell Direct will help simplify your system repairs with advice on building control maintenance, reliable products for your systems and fast replacement parts delivery. Save time and energy! Call your Honeywell Direct representative at 1-800-367-4757.
