HONEYWELL USERS GROUP SYMPOSIUM 2019

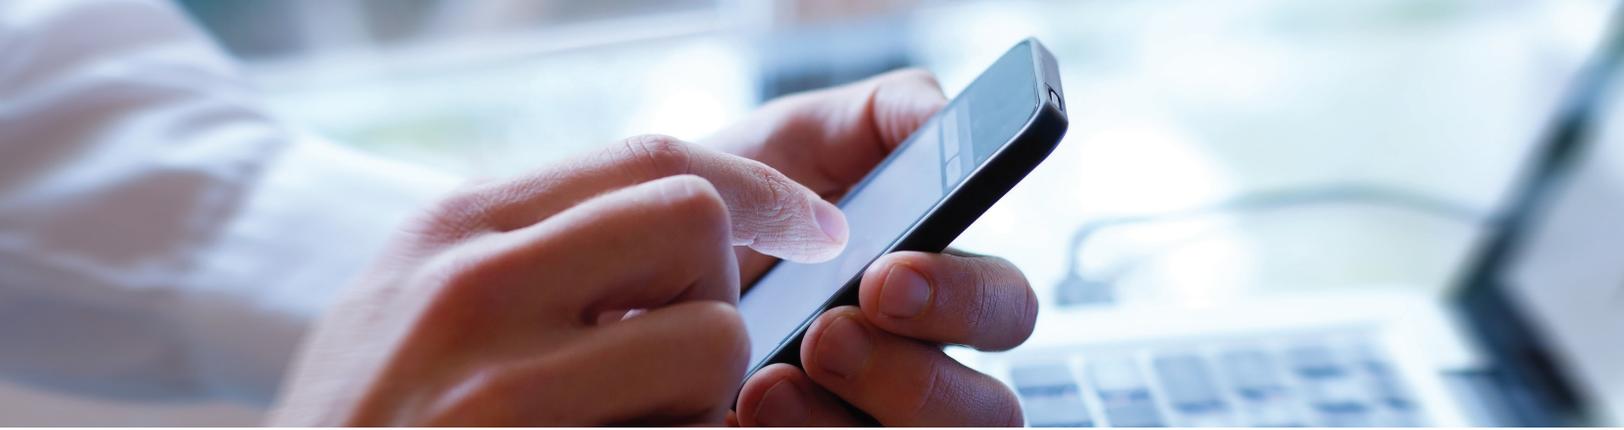

Save the Date:

June 9-13, 2019

The Arizona Biltmore

Phoenix, Arizona

Find Out What Your Business Can Achieve With Honeywell Users Group

More efficient operations. Valuable insights. Best practices. Greater profitability. Learn about all this and more when you attend the Honeywell Users Group (HUG) to explore the latest features and technologies alongside proven methods for optimizing your building-management system.

Build Powerful Insights: Symposium 2019

The annual HUG Symposium brings a diverse array of customers together to share information, ideas, and experiences with industry peers.

The objective: To provide a relaxed, information-rich environment where you can learn new ways to enhance your business results. HUG also provides you with the opportunity to view the latest Honeywell technology and share feedback to help ensure Honeywell products and systems continue to meet your needs.

Developed by customers for customers, this four-day educational conference includes:

- Numerous industry and application breakouts.
- Technical training classes – a \$1000 value.
- Technology demonstration area staffed with Honeywell experts.
- And much more.

Sharpen Your Edge: HUG Technical Training

The HUG Training Center conducts four instructor-led, hands-on technical training sessions, each offered multiple times during the week.

Your HUG Training Service Contract can be used as a convenient vehicle to pay for the symposium costs, enabling you and your organization to more easily budget for the event. The offering includes the registration fee, up to five nights at the designated conference hotel, and post-conference access to additional learning opportunities for you and your team.

Have questions about a new or existing application? Migration-specific concerns? Get answers to your site-specific questions during your Expert by Appointment session with Honeywell subject matter experts.

Attendee Testimonials

“As a first-time attendee, I was blown away by the quality of presentations – from the graphics to the AV to the customer and keynote presenters.”

“This was my fifth time attending the conference and they seem to get better each time. I did like how some of the companies presented in the main session. It gives you a chance to hear from other areas besides the breakouts you usually attend.”

“Can’t wait for next year; already on my calendar!”

“This is great for stepping back and thinking strategically. Really enjoy having some of my standard assumptions challenged. Honeywell Users who do not participate have no idea what they are missing.”
